## SENATORS WHET AXES FOR EXEMPTION REPEAL.

**Wilson "Scuttle-American-Ships" Policy May Be Shelved for Weeks.**

O'Gorman Promises to Get His Committee in Action by Tuesday, and Meanwhile Amendments Are Driving Administration Friends Into a Frenzy Lest President's Idea May Receive Its Quietus.

[BY A. P. NIGHT WIRE.]

WASHINGTON, April 1.—The administration bill to repeal the toll exemption for American ships in the Panama Canal, which passed the House yesterday amid spectacular scenes, reached the Senate today and promptly was referred to the Committee on Intercoastal Canals without debate.

Senator O'Gorman, chairman of the Canals Committee, who is marshaling the anti-administration forces, announced tonight that he would call a meeting of the committee for next Tuesday. Until that time no formal consideration of the repeal measure or proposed amendments can develop. Although friends of President Wilson had hoped to have the Canals Committee meet earlier, they decided to make no effort to induce Senator O'Gorman to change his plans. They will insist, however, upon acting within a reasonable time after the committee resumes work.

Senator Owen of Oklahoma, the majority member of the committee, who will lead the fight in committee for the administration, conferred today with the President. Later, he made emphatic declarations that the bill to repeal the tolls would not submit to unnecessary delay in preliminary consideration of the bill and finally declared that the gauntlet of committee discharge would be impeded should an attempt be made to impede the progress of the measure.

That some members of the committee who oppose exemption repeal desire to have public hearings on the bill was apparent, but administration friends insisted that such hearings were unnecessary, and that there could be no other reason for them except gallantry to cause delay.

OWEN'S COMMENT.

"Public hearings on this issue are unnecessary," Senator Owen said to-night, "and we are determined to have this controversy, which is a clean-cut issue and thoroughly understood by every Senator. We are entitled to get away from Congress at this time, and intend to do it if possible."

CORRECTED HOUSE COUNT.

Corrected count of the House yesterday, resulting from the executive clause, as announced in the Congressional Record today, is 247 for the repeal and 162 against it, a majority of eighty-five for the administration. The count, as announced last night, was 246 for the repeal.

Representative Dyer, Republican, of St. Louis Mo., who voted against the repeal, was omitted in the list.

CRITIQUE CHURCH AND KENT.

California Congressman at Once With Associates Over Their Vote on Tolls Exemption Bill.

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]

WASHINGTON BUREAU OF THE TIMES, April 1.—Representatives Church and Kent are being bitterly criticised by other members of the California Congressional delegation for voting for the Sims Bill to repeal free tolls.

No explanation is given for the stand taken by Kent on the free tolls vote, but the California Congressman is charged he was rewarded for sticking to the Wilson administration and voting for repeal by being allowed to name the Bakersfield postmaster.

Thomas Klipstein was indorsed by Church and Kent for postmaster months ago, but the nomination was held up on the demand, it is reported, of former Mayor Phelan and certain San Francisco Progressive politicians who opposed Klipstein, desiring to put in one of their own henchmen.

By his vote for the administration, Church is said to have routed Phelan and his crowd, and the nomination of Klipstein is expected soon.

MAYOR ROBERTS' TRIAL.

Witness Testifies He Found Many Fictional Names Had Been Registered in Texas.

[BY A. P. NIGHT WIRE.]

TERRE HAUTE (Ind.) April 1.—Ernest Schumer, an investigator of the list of voters, testifying for the State today in the trial of Mayor John M. Roberts, charged that many fictitious names had been found many fictitious names had been registered. The State is endeavoring to show that these names were registered at the direction of Mayor Roberts.

In his message President Huerta had refrained from extensive mention of international relations, although he commented with some bitterness upon the dimensions of the Mexican government and the difficulties the Mexican government had encountered in obtaining money owing to the influence exercised by a certain power towards Mexico."

The measure providing for the sale of the lands will be based on the area of productiveness of the lands.

SEATTLE COAL LAND CASES.

Chief of Field Service to Lay Evidence Before McKeynold's Assistant in San Francisco.

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]

LOS ANGELES (Calif.) April 1.—Chandler, known in New York as the "Billion-Dollar Kid," and much in the news several years ago on account of his escapades and matrimonial adventures, placed an advertisement in New York newspapers yesterday saying he will be responsible for the wife contracted by wife, who was Grace La Rue, the actress.

He has been hinted for some time that he is to build the house and that Great Britain had no rights or interests whatever in the transaction.

Speaking in support of the pending resolution before the President, who have protested against the tolls exemption clause, Senator Jones

MISSING ON HIGH SEAS.

Captain of Steamer Arriving at Baltimore Reports not Sighting Two New York Canoists.

[BY A. P. NIGHT WIRE.]

NEW YORK, April 1.—Word was received here today from Capt. Vernon of the steamer Northwestern, who said that he had not sighted Thomas Jordan, Jr., and Clarence Brown, two young men who were last seen in a canoe in the waters off this port and whom the New York was reported to have taken aboard.

The two young men left the Brooklyn water front last Sunday in a canoe and later the craft was seen about two miles from shore.

## Leads Senate Fight Against Repeal.

Senator O'Gorman,  
Chairman of the Intercoastal Canals Committee, who promises to give the administration an interesting time on the tolls exemption repeal bill.

"Viva!"

## THE CREDO OF HUERTA INSPIRATION TO MEXICO.

[BY A. P. NIGHT WIRE.]

MEXICO CITY, April 1.—"Before leaving these premises I must engrave upon your hearts that it is my purpose, as I have said before to the national Congress, to achieve the peace of the country, and if to do so your sacrifice and mine shall be indispensable, you and I will know how to sacrifice ourselves. This is my purpose, or, what is the same thing, my profession of political faith."

With this statement, President Huerta ended his message to Congress which convened tonight. Throughout the session, neither the members nor those in the gallery interrupted with applause.

Just before his closing words, President Huerta paused and surveyed the house, which became unusually silent when the first finger of the speaker upon the Congress hit his "profession of political faith."

In his message President Huerta said he refrained from extensive mention of international relations, although he commented with some bitterness upon the dimensions of the Mexican government and the difficulties the Mexican government had encountered in obtaining money owing to the influence exercised by a certain power towards Mexico."

The only direct reference to the United States was a review of the work done by the Foreign Office, when he said:

"Referring to the Department of Foreign Relations, I must tell you that the government of the republic has earnestly endeavored to develop a just nationalistic policy, which, far from injuring our international relations, has resulted in making the most cordial possible with the chief powers of the world."

Some of the South American states have not yet recognized the constitutional government ad interim of the republic, but the greater number of them keep in Mexico diplomatic representatives and no one of them has interrupted its relations with the republic. The United States has been so good as to invite Mexico, through His Excellency, President Wilson, to organize in common accord the preparatory work for the annulling peace conference at The Hague.

President Huerta told Congress that the Department of Agriculture was preparing laws regulating the distribution of 300,000 square kilometers of government lands.

"I have the satisfaction of informing the citizens," he added, "that the government has lands sufficient, without disturbing a cent of the property of all our citizens, as well as of foreigners of good intention."

The measure providing for the sale of the lands will be based on the area of productiveness of the lands.

He said, will be based on the area of productiveness of the lands.

Mexico

(Continued from First Page.)

But the information was contained in a telegram from the customs collector at Eagle Pass and was said to have come over the wire from Torreon. The War Department, however, asserts that no report has been received, in spite of the alleged absence of the wire.

Another report current here was that Gen. Velasco had at last surrendered and that while Villa had executed certain Federal officers, Velasco had been spared.

The State contended that Major Roberts, who had been appointed to take to the registration booth in automobiles. Witnesses have testified to taking parties of five or six men to the different precincts, where they registered falsely.

"BILLION-DOLLAR KILL."

Chandler Advertises in London He Is Not Responsible for Debts of His Wife, Grace La Rue.

[BY ATLANTIC CABLE—EXCLUSIVE DISPATCH.]

LONDON, April 1.—Byron D. Chandler, known in New York as the "Billion-Dollar Kid," and much in the news several years ago on account of his escapades and matrimonial adventures, placed an advertisement in New York newspapers yesterday saying he will be responsible for the wife contracted by wife, who was Grace La Rue, the actress.

He has been hinted for some time that he is to build the house and that Great Britain had no rights or interests whatever in the transaction.

The two young men left the Brooklyn water front last Sunday in a canoe and later the craft was seen about two miles from shore.

## WORDS, WORDS, DEMOCRATS.

A Good Record Is Made Even Under the Gag Rule.

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]

WASHINGTON BUREAU OF THE TIMES, April 1.—Sam Grey, the official House stenographer, had so much time on his hands today, after the tolls storm that he did a little figuring. He estimated the solons uttered \$6,000 words yesterday during the debate, and \$6,000 more under "leave to print in the record." He considers this a pretty good record under "gag" rule.

SEATTLE'S MUNICIPAL LINE.

Mayor Gill Suggests to Council Admissibility of Heading Off Referendum Vote on Proposed Route.

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]

SEATTLE, April 1.—Discussing the terms of an order which is proposed in order to properly establish a municipal street car system, Mayor Gill advised the City Utilities Committee of the Council, that in order to avoid a referendum vote the system be limited to the Rainier Valley, Lake Washington, Magnolia, and Highland Park and Lake Burien by way of Spokane street, the commonly used portion of Fourth Avenue and Division, extending from Pine street to the Puget Sound. The extension west, with the understanding that extensions should be made from time to time from this system in order to provide street car service for sections of the city not yet served.

In urging that the original limits of the street car system be confined to these lines, the Mayor pointed out the danger of a streetcar system if a large part were provided for lines that will enter competition with the traction company in territory already served, thus endangering the entire plan of municipal street car service.

Another report given by the Mayor for limiting the city system to these lines was that they would give the city opportunity to definitely determine whether or not the municipal street car can operate a street car system at a profit.

ISSUANCE OF THIRTY-THREE PUBLIC UTILITY BONDS BEARING 6 PER CENT. INTEREST, AND PRINCIPAL PAYABLE ON A FIXED DATE, IN THE SUMMATION OF THE FIVE-YEAR INTERVAL THEREAFTER, AS THE PLAN PROVIDED.

At present, given by the Mayor, the entire system is to be built at a cost of \$1,000,000.

MAURICE STEPHENS.

Washington Sugar Company is to change its itinerary as to move to Los Angeles on the 10th. He will remain in Los Angeles shortly before 10 o'clock and will be at the disposal of the Chamber of Commerce, which will be present on the harbor celebration April 11. Mr. Knowland wired his acceptance of the invitation to be present today.

Congressman Stephens also secured

## TACOMA IN FULL CONTROL OF FOREST WATERSHED.

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]

SATTLE (Wash.) April 1.—Under a formal agreement with the Secretary of Agriculture, Tacoma has just obtained the right to use without cost the entire Green River watershed, lying within the Snoqualmie national forest. The city is to exercise practically the same control of the government lands as if it owned them outright, and at the same time will relieve the city from all fire and fire-fighting.

"The forest service always has held that most of the national forests were more important to the nation than to public welfare than that of a municipal water supply," said Senator G. Smith, Supervisor of the Snoqualmie national forest, today.

This agreement is similar to that which Seattle is now considering. It provides that the use of the land will

not be permitted except in connection with the cutting and disposing of such timber as may be removed without injury to the water supply, necessary roads for the rail and telephone lines, and

The government will support the city in the enforcement of its sanitary regulations and will forest lands as if it owned them outright, and at the same time will relieve the city from all fire and fire-fighting.

## The Cooking Problem Solved in the use of **ELECTRICITY** "The Ideal Fuel"

## The Olston Electric Range Tried—Tested—Proven

Hundreds of satisfied customers in Los Angeles has proven that the Olston Electric Range is a demonstrated success. It is recognized as the only practical and efficient electrical stove on the market. The Olston accomplishes everything desired—it cooks, bakes, boils, broils, etc., and in a superior manner. Its safety and convenience makes it especially desirable for the housewife. It is accurate in every detail and can be used in any part of the house, for it gives off no heat nor odor and is clean in every respect.

The Olston is well built of sheet metal and aluminum, beautifully finished in nickel and gray, and absolutely guaranteed.

### Fuel Bills Cut at Least One-Half

The heat is controlled by an adjustable automatic Thermostat which gives an even temperature of any desired degree and yet uses the electricity only a fraction of the time. Every bit of heat is utilized. The Olston is positively the most economically operated range on the market.

## OHIO SHUTDOWN IS INDEFINITE.

**Mine Operators Will Wait for New Wage Scale.**

**Unionists in Pennsylvania Modify Their Demand.**

**Painters in Toledo on Strike for a Pay Increase.**

(BY A. P. NIGHT WIRE)

COLUMBUS (O.) April 1.—Ohio bituminous coal mines will not resume operations tomorrow, after the "eight-hour day" holiday of today, according to operators of this city. The operators said tonight that they have decided to stand by their decision to suspend operations until a new wage scale is agreed upon. No attempt has been made thus far by either side to effect a new working agreement, the 50,000 miners having signified their intention to mark time until the results of their referendum vote is known.

It was reported tonight the miners in some districts may carry out their intentions of reporting at their usual places of employment tomorrow as if no differences existed with their employers. Action of this sort, the miners pointed out, would emphasize their willingness to continue under the old wage scale, pending the outcome of their referendum.

**IOWA WAGE SCALE.**  
(BY A. P. NIGHT WIRE)

DES MOINES (Iowa) April 1.—Operators and miners within the territory of district 13 of the United Mine Workers of America—Iowa and Northern Missouri—have opened a joint wage conference tomorrow morning. A readjustment of local inequalities will be the only important request to be made by the union men. No increase in wages will be asked at this time.

The contract between the operators and miners expired today but save in a few instances there was no suspension of work. Several mines in Southern Iowa were closed because of the oversupply of coal. Unless serious differences are reached in the

conference the greater number of mines will continue in operation.

**UNION DEMAND MODIFIED.**

(BY A. P. NIGHT WIRE)

PHILADELPHIA, April 1.—Orders for an indefinite suspension of work in the bituminous coal mines of Central Pennsylvania district were rescinded by the operators today pending further efforts to effect a new working agreement with their employees.

The miners refused to agree to a reduction in wages in return for the car-pushing concession.

The conference will continue tomorrow.

The mine workers presented today a third modification of their original demand that the coal companies pay for the hauling of coal cars in and out of the mine chambers. The operators contend this demand would increase the cost of production from 7 to 14 cents a ton.

**STRIKE AT TOLEDO.**

(BY A. P. NIGHT WIRE)

TOLEDO (O.) April 1.—Julius Rosenwald, president of a mail-order house, will pay the largest Federal income tax of anyone in Chicago. His return, which was filed during the thirty days allowed, showed an income of \$1,100,000 for the ten months ending December 31, 1913. This would be on a basis of \$11,000,000 for twelve months.

More than 100,000 miners were included in the extension period. Nearly 30,000 individual schedules have been filed here.

Officials in the offices of the Collector of Internal Revenue estimated that the total government revenue from the tax in the Chicago district will be about \$2,000,000.

**MISSING GIRL RETURNS.**

(BY A. P. NIGHT WIRE)

LAWRENCE (Mass.) April 1.—The strike at the Pacific Mills Print Works, inaugurated on March 13 by the color mixers, who demanded an increase in wages, practically ended today when all but a few of the men accepted their old positions and were told to report for work tomorrow.

It is understood that the strikers returned at the suggestion of the State Board of Arbitration, pending the result of an investigation.

**NEW REIGN OF TERROR.**

(BY A. P. NIGHT WIRE)

CHICAGO (Ill.) April 1.—Supposed Dead Man Dies After Scaring Friends Who Thought They Had Buried Him.

(BY DIRECT WIRE—EXCLUSIVELY DISPATCHED)

NEW YORK BUREAU OF THE TIMES, April 1.—Thomas Lynch, in the last stages of tuberculosis, returned to his home during the thirty days he had been absent. Every friend he met turned pale and started back in horror.

"We thought you dead," one said.

"We buried a man under your name three weeks ago."

Some other tubercular patient,

had died under a train, was identified as Lynch and buried. Lynch, in no condition to enjoy the joke, died today.

**BIGGEST CHICAGO INCOME.**

(BY A. P. NIGHT WIRE)

CHICAGO (Ill.) April 1.—Julius Rosenwald, president of a mail-order house, will pay the largest Federal income tax of anyone in Chicago. His return, which was filed during the thirty days allowed, showed an income of \$1,100,000 for the ten months ending December 31, 1913. This would be on a basis of \$11,000,000 for twelve months.

**LETTER BARES  
KILFOIL PLOT.**

**Conspiracy Shown in Charge  
Against Girl.**

**Misive Found in Search of  
Cell at Jail.**

**Cecil King Detained to Tell  
His Story.**

A letter from Julia E. Kilfoil, to her brother, Philip A. Kilfoil, found in his cell at the County Jail yesterday, was disclosed to Deputy District Attorney Ford late night that the Kilfoil statements accusing Lillian Palmer of murder are the fruits of a conspiracy in which five persons figure.

This letter, bearing a hasty-headed plot to throw the responsibility for the poisoning of Mary E. Kilfoil to Lillian Palmer, is to be used by Ford as a clinching stroke to prove that the whole charge against the girl is a frame-up from start to finish.

While Philip Kilfoil was in the grand jury room yesterday awaiting his accusations against the Palmer girl, detectives searched his cell, and there found the tell-tale letter, which was smuggled into the cell ten days ago. The letter urges Philip to do as he was told by John F. Kilfoil, brother, and Walter V. Dwyer, his attorney. It spoke of the "plan" being adopted at a family conference.

The following day there issued from the County Jail a statement charging Lillian Palmer with murder.

The documents were first given to The Times and later to the District Attorney. One was a statement dated March 23, at the County Jail; the other, a letter from Philip Kilfoil, pet name for the Palmer girl. The letter was dated February 23, at the City Jail. This letter was supposed to have been sealed in an envelope with the statement, and was given to Palmer girl by her attorney. But an investigation developed that this statement, supposed to have been written in the City Jail, February 23, was not written until some time between last Thursday and Saturday in the County Jail.

**WRITTEN AFTERWARD?**

After The Times published the accusing statement and the letter to Kilfoil, they were said to have been turned over to the District Attorney's office. The letter, dated February 23, was really written by Kilfoil last week and added to the other documents turned over to the District Attorney.

Witnesses were called before the grand jury yesterday to corroborate the State's theory of a conspiracy, and it is quite likely that dramatic action will be taken before today's session, the third this week, is concluded.

The letter from Julia E. Kilfoil, showing how the sensational move was argued with Kilfoil, was presented to the grand jury last night. While it is said in the District Attorney's office that he is merely a witness, it is known that he possesses sufficient vital information to put the Palmer girl in a great deal nearer to solution than it is at present.

King, an associate of Lillian Palmer and other boys and girls of her acquaintance, disappeared from Los Angeles two days before it became known that he had been shot and committed. He is 17 years old, and his mother conducts a grocery at Santa Barbara avenue and Melville street. When he left Los Angeles he went to San Francisco and since derives from the District Attorney's office.

His return to the city a few weeks ago was followed by a hasty departure and he was living with his mother, and he was found only a few days ago by a county detective. He had been under surveillance for some time, and was placed in Juvenile Hall last night only after it was learned that he was trying to leave the city. He was before the grand jury for half an hour yesterday, and his testimony will be concluded today.

**GIVEN MILITARY HONORS.**

Corporal of Machine Gun Company of Seventh Regiment, N.G.C., is buried at Rosedale.

Corporal Ralph Englund, 20 years old, son of Peter Englund of No. 925 West Fifth street, and a member of the recently-organized machine gun company of the Seventh Regiment, N.G.C., was buried yesterday afternoon at Rosedale Cemetery with military honors. Englund served for years as second Lieutenant of the Boys' Brigade.

The services of the Sterling S. Booths, performing establishment, were under the direction of the Boys' Brigade, Dr. Morris H. Turk of the First Congregational Church officiating. At the cemetery the formal military honors were held, with an escort from the machine gun company under the command of Capt. F. M. Golmire, and a firing detail of six men from the company, who fired three volleys over the grave at the conclusion of the ceremony. The five pallbearers were H. Bean, Arthur Taylor and Noel George from the Boys' Brigade, and Sergt. Wiggins and Corporals Wain and Sawyer from the machine gun company.

**C. W. FRENCH AGAIN.**

Pending a hearing before Judge Craig tomorrow morning in habeas corpus proceedings, C. W. French, who pleads he is being maliciously persecuted, was released by Probating Judge McCormick yesterday on a writ signed out by French's attorneys, Kemper B. Campbell, Collier & Clark and Robert Fisher.

French was arrested yesterday on the charge of obtaining money by false pretenses in Salt Lake City. The Utah authorities are seeking his extradition, and French's attorneys are bending their efforts to prevent railroad their client in Utah.

The court again postponed a hearing on the case, and a draft in payment for board and lodging of the Hotel Utah at a recent conference of men interested in the Pacific Steel Company.

**SPECIAL RATES** for the summer now on at the Hotel Stewart, Eighth and Figueroa, Call and we before looking, or ring up Broadway 506, done.

**For Greater Power**

(Continued from First Page.)

case, which will return the company approximately \$2,500,000 in cash. According to Ballard, the \$1,250,000 additional needed for the outlined additions and betterments will be obtained by the sale of bonds already authorized.

The Santa Monica Water Company proposes to issue \$500,000 in per cent. thirty-year mortgage bonds, under a deed of trust to the Citizens Trust and Savings Bank of this city. Of this issue, \$96,072 will be used for extension of service, approximately \$250,000 to retire bonds issued July 1, 1912, and \$152,926 to discharge other obligations.

Commissioner Loveland of the State Railroad Commission will hear the company's bonding application at 10 o'clock Saturday in this city. At the same time, the commission will consider the application of the company for right to sign the ordinances of the City Council of Santa Monica by which the company's franchises were re-confirmed.

The Santa Monica Water Company places a valuation of \$750,000 on its property. The gross receipts last year were \$2,084, while the gross earnings showed an increase of \$17,403 in 1912.

**OTHER IMPROVEMENTS.**

Among a host of improvements the Glendale and Eagle Rock Railway Company proposes the broad-gauging of its Eagle Rock division at a cost of \$14,000. This improvement will be made in the first time, to accommodate freight traffic, and will also eliminate the passenger-transfer at Glendale avenue and Third street, thus affording through service for the first time between Eagle Rock and Brand boulevard, Glendale.

Money for improvements is to be secured by the issuance of \$150,000 in fifteen-year, sinking fund, 6 per cent. bonds. After the retirement of \$25,000 outstanding bonds, the balance of \$14,019 is noted, and the reimbursing of the treasury to the extent of \$40,169, the remainder, less a probable discount of \$12,500 in placing the bonds, will be used for improvements.

Among the expenditures contemplated for betterment of service are \$500 for car barns at La Crescenta, \$1,160 to repair storm-damaged and broken concrete structures, \$1,150 for new equipment, and \$150 for effecting a connection with the Salt Lake. An estimate of \$5000 is also made as the amount of the proposed work to connect the Verdugo Wash.

The Glendale and Eagle Rock Company's bonding application will be heard tomorrow at 10 o'clock by Commissioner Loveland of the State Railroad Commission in the Supreme Courtrooms in the Bullard building.

**CUSTOMS SHAKE-UP.**

Some Men Let Out of the Service and the Salaries of Several Others Increased.

The biggest salary shake-up in the history of the local customs district was announced yesterday. The total savings, according to the collector, are \$12,127.50, and the increases of stipend to \$5842.50, making a net saving of \$4285 a year. The reduction in running the local collection district began last July, when, by consolidation, San Diego, Tia Juana, Calexico and Campo were placed in this district. At that time the office of confidential secretary, carrying a salary of \$2000 a year, was abolished. There were reductions at San Diego, Long Beach and other points.

The men who have been relieved from the service, to take effect the 15th inst., are Lawrence B. Jerome, messenger, at a salary of \$440; David C. Moore and Martin E. Sayles, night watchmen, with a salary of \$400 a month.

The men who have been relieved from the service, to take effect the 15th inst., are Lawrence B. Jerome, messenger, at a salary of \$440; David C. Moore and Martin E. Sayles, night watchmen, with a salary of \$400 a month.

## Los Angeles Times

EVERY MORNING IN THE YEAR.  
Daily, Sunday. Illustrated Weekly and Semi-  
Monthly Magazine. Daily Founded 1851.  
4, 1881—254 Years.  
Member, Class A, of the Associated Press. Los Angeles  
Telegraph Office as well as member of Class D.

**IMPOSSIBLE.**  
Senator Ham Lewis of Illinois—he of the pink whiskers and the lowered vest—proposes the impossible. He is urging a resolution to give the President discretion in the matter of suspending Panama Canal tolls. Senator Lewis proposes that Congress shall undertake a task at which the Almighty failed years ago—that of giving discretion to Woodrow Wilson.

**ENGLAND DENIES ANY CONTRACT.**  
Sir Edward Grey, in the House of Commons, denied that he had agreed to give or that England ever would give to the United States any assistance in regard to Mexico or anything else in return for a repeal of the Panama Canal tolls exemption bill. His Majesty's government was not in the habit of "driving things" in order to secure her absolute rights. The right of England to dictate to the United States how the canal should be managed was an absolute right. By the Hay-Pauncefort treaty it was agreed that England would permit the United States, with its own money, to build the canal and in return for this gracious concession Great Britain should be a partner of the United States in the management of the canal.

**RESTRICTING CURRENCY.**  
Caranza is showing himself to be a financier of original thought and of a high order of merit. First he issues paper pesos which he makes a legal tender for all debts, public and private, with promises of public prosecution and menaces of private assassination against Mexicans and foreigners who shall discredit this currency by refusing to exchange silver for it on a basis of five to one, or gold on a basis of ten to one. These paper pesos he calls in by a novel process. He appoints commissioners who are provided with rubber stamps containing the word "counterfeit." These commissioners visit the banks and shops and require the proprietors to present for inspection all the currency they have. About two-thirds of that presented is stamped "counterfeit." Thus is the amount of currency in circulation restricted and the credit (Hu) of the constitutional cause maintained.

**THE NIT DEPARTS.**  
"Gen." Morris Rose has quit the "army," and the veteran "unemployed," whose proud boast is that they never miss a meal or pay a cent, are wandering up and down the beat of the late Los Angeles River singing:

"Our helmsman is gone and we dare not cast anchor.

We drift on, the tempest vexed, shadow-hung seas,

The power of a Sardis and fierce-fevered raves."

He blackened the hour and poisoned the brook."

It is rumored that the cause of the retirement of "Gen." Rose was the refusal of certain soldiers of the "army" to accept an offer of employment for ten days at \$5 per day and allow "Gen." Rose to collect their wages and use the money "for the good of the cause." Whereupon the general in a rage resigned and started for Sacramento where his talents and patriotism will be appreciated. The Los Angeles I.W.W. Committee on the Deportation of Undesirables gave him a tearful farewell. "Go," said the chairman. "In taking your leave you could not take from us anything that we would more willingly part with!" "Go, you self-seeking, bombastic, grasping, egotistical, eye-eyed, spindie-shanked spawn of a brass monkey and a nit—Go!"

From February 8, 1914, to March 15, 1914, it cost the government nearly \$164,000 for the various investigation committees authorized by Congress. And what was accomplished could be put into a squirrel's ear.

The loss of memory by that San Bernardino man is nothing out of the ordinary. There are a lot of people to whom we have loaned a dollar at various doors and sundry times who have the same affliction.

The woman whose face is her fortune will be compelled to pay the income tax if the internal revenue agents "on account" get a glimpse of her. The Wilson administration needs the money.

Prince Iseya Tokugawa (run that on your piccolo) has declined to become Premier in the new Japanese Cabinet. What a shock that must be to Secretary Bryan.

Champ Clark says there are ten thousand men in this country who would make good Presidents. Champ sees one every time he looks in the glass.

It is estimated that there is a baby born in California every five minutes. In that case the stork must be working over the union hours.

Prince Rakani of Siam will represent his country at the Panama-Pacific Exposition. Why not also arrange for the Akond of Siam?

The Prohibition fight has opened in California. Are the sails close reed? There's going to be right smart of a blow.

Pancho Villa said he expected to be in Torreon by April 1, but he did not say what year.

**THE CITY'S HILL-OPENING PLAN.**  
The one serious obstacle to carrying out the First and Second-street tunnel projects has apparently been eliminated as the result of the City Council's giving the advocates of the former tunnel full assurance that this essential and integral part of the city's comprehensive hill-opening plan is not to be side-tracked or delayed a day longer than is absolutely necessary. Hereafter, to the great credit of those who have been laboring so ardently year in and year out for the consummation of one project or the other, there will be no such thing either as a First-street or a Second-street enterprise in a restricted sense. The big, vital consideration is the plan to give West, Northwest and North Los Angeles a direct, quick and convenient access to the whole of the business district.

It is only fair and just to the men who have fought so long and hard for the recognition of the imperative need for a tunnel at First street to say that they were not uniminated by party or merely selfish motives when they interrupted the City Council proceedings with a demand for an unmistakable and official assurance that there would be no discrimination in carrying out the tunnel programme. This comment is particularly called to the attention of those who have lived in Los Angeles but a short time and to tourists observers who may be disposed to misconstrue the attitude of the First-street property owners. Only one who has lived here for five years or more and who has witnessed the unfortunate turns that the tunnel movements have taken can adequately realize and understand the situation. Until this year, the tunnel projects have always come up separately, the backers of each bore thereby unfortunately having been placed in the position of having to fight for the single improvement in which they happened to have the most concern and against competing interests. Years of this kind of thing, it is to be feared, had engendered a mutual antagonism, and it is hardly to be wondered at that the First-street element should have demanded a guarantee that would insure the early carrying out of the project which means life to their own district before throwing themselves wholeheartedly into a plan to rush the Second-street bore to completion ahead of their own. The Second-street owners would have demanded a similar guarantee if it had been the First-street tunnel that was to have received the prior consideration.

The blunder of the tunnel proponents all along has been that they have considered as sectional and local movements these projects that are essentially of city-wide importance. The public had begun to weary of the endless squabbles between the First and Second-street advocates; and no surer indication of the real and live interest felt by the city at large in opening up the hill or of the intelligent understanding of the public need for new arteries of traffic in the downtown streets could have been demanded than is shown in the general plan for the two bores and the West First-street boulevard. It is as though the people of Los Angeles had said in chorus: "Now that you're through scrapping, we're through with you."

The technical engineering problems in connection with the Second-street project may easily be disposed of now that the greater difficulties imposed by the likelihood of a serious protest from the First-street property owners have been so happily overcome. Even before the steel scoops begin to gouge out the earth at the Second-street ends of the hill it will be possible to have the plans for the more complicated First-street enterprise well in hand. The Council, aided by the efforts of the West First-street property owners themselves, has practically succeeded in making it possible to begin the widening and improvement of that thoroughfare west of Figueroa street within the next few months. It will be easy, if all goes as is anticipated, to have the great northwest boulevard all ready and waiting for the surging traffic that will seek an outlet through the First-street tunnel the moment it is completed.

The eyes on the tunnel question have it all their own way and it may be put down as a foregone conclusion that all the isolated, disorganized and ill-considered opposition to the great hill-opening plan will vanish in thin smoke before the solid and aggressive front of the united forces of the First and Second-street property owners and their equally determined allies and supporters among the thoughtful and progressive people of Los Angeles at large.

**HAMMERS AND EGG-SHELLS.**  
In the next naval war between two great powers, not on big battleships, scientific submarines, tough steel plates or competent gold reserves will depend the triumph of a nation. But chiefly through superior marksmanship the destruction, from which safety and success must be torn, will be brought about.

In reckoning the naval supremacy of any country this paramount factor has so far never entered into the calculation. Whether America, Great Britain, Japan, Germany, France or Chile is at present the real mistress of the seas nobody can say. Because no statistics take into account the marksmanship of the man behind the gun. The war of the future will be a battle of the eyes.

Such at least is the conclusion arrived at by Winston Churchill, first lord of the British admiralty, an official who has taken his duties seriously and informed himself by practical experience on every phase of the naval question. A contest between great modern ironclads will be "a battle between egg-shells striking each other with hammers." For the science of offense is getting monstrously out of all proportion to the science of defense. So "hitting hard and hitting first" becomes the chief problem for future fighting men.

This, it is easy to see, depends on the accuracy of the human eye. The hammer will destroy the egg-shell if the eye can direct a straight blow. We may therefore plumb ourselves on the knowledge that our American marksmanship is equal to any in the world. But have we a sufficient supply of hammers?

For another conclusion is being forced on the notice of experts in the science of naval warfare. After all, the building of ever larger and more expensive warships may prove to be a futile proceeding. Because the present mistress of the seas may have to reckon with the future mistress of the air. Huge floating cities of steel and power, armed with a community of fighting-men, equipped with the finest scientific devices of defense, may be burst like soap bubbles by an insignificant butterfly hardly visible among the clouds of heaven. One pair of sharp eyes, aided by unerring fingers, may launch a projectile against which the accumulated steel and science and gold of the world, represented by the colossal ironclad, may be as helpless as a baby.

The value of aeroplanes in war has never been fully tested. Their future development is beyond the power of human imagination. It is folly for any nation to disregard their possibilities. America is far behind Europe in fighting airships. Yet it may be an important, possibly a decisive, factor in future naval warfare. Winston Churchill's boast that England is leading the world in the construction of an aerial navy should stir our people to strengthen this form of national defense.

If the value of good marksmanship is essential to a sea victory, it is absolutely paramount in deciding a fight in the clouds. But what avail our superior American gunners if they are without the most efficient instruments for making that superiority felt? What avail egg-shells without the hammers? The bigger the battleships, the smaller the target; it is easier to hit an elephant than to shoot a fly. The aeroplane compared to the battleship is as a fly to a hippopotamus. It may be a small hammer.

The Supreme Court delivered no opinion,

there was no written statement of the points of division made by any Justice, and whether the divisor of the court was upon the constitutionality of the law or upon some unimportant technicality is not known.

Yet, if the decision had been that the cotton tax law of 1862 was unconstitutional that would not have entitled those who had paid the \$62,060,160.92 to recover their money. That could only be accomplished by an act of Congress, and the decisions of the Supreme Court are not mandatory upon Congress, but only advisory. In this case the decision of a divided court was not even advisory, for the precise point in issue—the constitutionality of the cotton tax of 1862 was untouched.

Those who paid the tax, or rather their descendants, for the money was collected in 1866, 1867 and 1868, feel that the government, after having had the use of money to which it was not entitled for nearly half a century without interest, ought to refund the principal to those who are honestly entitled to it.

It is this idea that probably inspires Congressmen Clark of Florida to lead a forlorn hope to procure restitution.

The history of the French spoliation claims, a portion of the Alabama claims, the claims collected from Russia for the capture of American sailors, the claims for customs refunds, Indian depredation claims and other claims in which the government has appropriated to its own use moneys of which it was really only a trustee but does not encourage the Florida Congressman to believe that any money that was unjustly collected in 1867 from the grandfathers of his constituents will be available for the present generation.

**WANTS HIS MONEY BACK.**

Congressman Clark of Florida is singing the old song of "Jack, Jack, Wants His Money Back."

He ignores the fact that every dollar—which constitutionally or otherwise—finds its way into the treasury of the United States joins in the hymn, "Far well, Vain World, I'm Going Home."

The Congressman is the author of a bill to take \$65,672,388.92 out of the United States treasury and return it to those who paid that amount to the collectors of the United States government cotton tax between 1862 and 1868, when the tax was repealed.

Of the \$68,672,388.92 the sum of \$63,060,160.92 was paid by the cotton growers of Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee and Texas in 1866, 1867 and 1868.

In 1862 Congress levied a tax of one-half

of 1 cent per pound on cotton and collected from all the States in 1863 only \$351,311.48.

In 1864 Congress levied a tax of 2 cents per pound and collected in 1864 and 1865 \$2,981,364.

In 1866 Congress levied a tax of 3 cents per pound and collected in that year \$23,769,780, and in 1868 \$22,500,947.77.

In 1868 the cotton tax was, as already stated, repealed.

It has always been contended that the cotton tax was illegal because unconstitutional.

This contention, so far as the acts of 1862 and 1864 were concerned, was never carried into the courts because the country was then engaged in the Civil War and "amidst arms laws are silent."

But the acts of 1866 and 1867, which produced \$68,672,388.92 of the total amount of

\$63,060,160.92 were both passed more than a year after the surrender of Lee.

There were no conditions which justified the collection of the tax in 1866, and pending the decision of a suit brought to test the legality of the act of 1866, Congress repealed the law.

The test case was brought by William M.

Farrington in Memphis, Tenn., against Rolfe S. Saunders, the United States Collector of Internal Revenue there, to recover damages for the seizure of 148 bales of cotton which had been assessed for taxes amounting to \$205,74.

The United States Circuit Court, to which the case had been removed, de-

## Take Off the Blue Glasses.

## A MOVING PICTURE.

BY EUGENE BROWN.

"I've got something up my sleeve," confidently remarked the moving-picture man as he wound up his machine for the day's run.

"Sure," retorted the old resident, "I can see it from here. It's a crooked elbow."

"Don't be foolish," returned the film friend. "I mean a real scheme—the best side line we've had. We're using the pictures in politics, a campaign with the movies on the firing line."

"Oh! a real scheme," exclaimed the pioneer. "I get you now. It's going to be a drill in the eight-day showing the untrained proletariat how to vote for Theodore von Rosenfeld, the extinguished Biblical explorer."

"Well, not exactly that, but you're warn-

ing. We're going to illustrate the party history and we give pictures of the great spots in the careers of the candidates. We're work-

ing now on a few miles of films giving the life story of our imminent friend, Hi Johnson, from the cradle to the Statehouse."

"You had me scared for a minute," inter-

rupted the pioneer. "I thought you said White House."

"It's not so imminent as that," continued the film artist; "but as far as we've got it is certainly a swell picture."

"It surely is if you've got the breadth of him in all the films. Where do you get your stories?"

"Oh, we go back to childhood's happy days. The child makes the man, you know. We've got the Governor from the time he was first spanked by his father."

"That's a great hit," interrupted the photo-

ner.

"Sure; it's a knock-out, a scream," replied the film operator. "Then we have starting off to school, studying up, getting shod, studying law, mixing in politics, hunting a job, consecrating himself to the cause of the people!"

"His state! What, already?" exclaimed the old resident.

"Well, anyhow, it isn't his own. I'll bet he took it from little Meyer Lissner. Can you see any names on the slate?"

"They don't show in the picture," replied the camera man.

"But if there's a slate, you don't have to ask questions. As it is written, so it is written. Anyhow, we show our future skaters going to school, going to college, learning to play seven-up, getting shod, studying law, mixing in politics, hunting a job, consecrating himself to the cause of the people!"

The Supreme Court delivered no opinion,

there was no written statement of the points of division made by any Justice, and whether the divisor of the court was upon the constitutionality of the law or upon some unimportant technicality is not known.

Yet, if the decision had been that the cotton tax law of 1862 was unconstitutional that would not have entitled those who had paid the \$62,060,160.92 to recover their money. That could only be accomplished by an act of Congress, and the decisions of the Supreme Court are not mandatory upon Congress, but only advisory. In this case the decision of a divided court was not even advisory, for the precise point in issue—the constitutionality of the cotton tax of 1866 was untouched.

Those who paid the tax, or rather their descendants, for the money was collected in 1866, 1867 and 1868, feel that the government, after having had the use of money to which it was not entitled for nearly half a century without interest, ought to refund the principal to those who are honestly entitled to it.

Doubtless the film friend with a grin,

"Our hero merely raises his right fist and in a roar of triumph declares that if things come his way he will serve all the people well and float the flag—perhaps or perhaps he goes before a notary public?"

"Nothing of the sort. He just holds up his hand impressively."

"You're dreaming. Nothing of the sort."

"I remarked the film friend with a grin,

"Our hero merely raises his right fist and in a roar of triumph declares that if things come his way he will serve all the

Fights His Life.An insanity defense will be under-  
taken when J. E. Scott appears before  
Superior Court on the charge of  
murder of M. T. Varney, the auto  
man. He was bound over by  
Judge Williams after a brief  
trial, at which his coun-  
counsel, Marshall, endeavored  
to prove that Scott was out of his  
mind at the time of the shooting.District Attorney Hogan  
had a number of eyewitnesses  
the shooting, and other officers, who were present when  
it occurred. Ambulance Ser-  
vice McLaughlin, who was passing  
the scene at the time, saw  
the bullet hit his gun and shoot into  
the automobile.

KICKED OUT.

The union bricklayers of these two  
cities refused to accept him and re-  
fused to give him any information  
on their action. By this time Johns was  
reduced to personal belongings  
in order to leave town. After  
experiencing similar treatment at the  
hands of those he considered his  
friends in Memphis, Johns proceeded  
to Tulsa, where he learned for  
the first time of the statements published  
in the official organ of the  
union and of its circular. Despite  
the fact that there was an abundant  
employment in this town, Johns was un-  
able to obtain employment.By this time he was most desti-  
tute and was forced to obtain em-  
ployment at a common laborer at a  
camp named Schuler in Okla-  
homa. From here he wrote to Mrs.  
Campbell of this city, asking her to

LETTERS TO  
"THE TIMES."

The letter above, clear, bright expression  
on several subjects, timely, pertinent  
and well written, and in the spirit of  
the Times, is welcome to the editor.  
It is submitted to the editor by the  
writer at the owner's request. Let  
it be understood that it is subject to editorial  
revision, and is subject to editorial

Save the Children.

LOS ANGELES, April 1.—[To the  
editor of The Times:] Referring to  
the accident to the little child in  
Washington street a few days ago, I  
would like to call attention to my opinion. It would be criminal  
negligence on the part of the  
parent or guardian to let the child  
play in the street, especially when  
there is a car coming along every morning, the corner  
house and Ninth streets, where a  
house is located. Ninth street, sloping  
down to Hoover and from Hoover  
goes to the corner of the street. Autos race down the street  
at a furious pace either way to get  
away to climb the hill. Besides, the  
corner street, north of Ninth, and  
the corner meet on this corner  
in a dense group of houses.

It is only by good fortune that no  
accident has happened to the children  
going to and from school.

I called attention to this danger  
and school approach to save mem-  
bers of the school board and sug-  
gested as a remedy the following:

The janitor of the building he  
selected as a special policeman; his  
duty during the hours when the chil-  
dren go to school and after the school  
day, to stand on the corner and direct  
the traffic, and also to ar-  
range for a crossing guard.

This should apply to every school  
in the city. MAX MEYERSON.

It Plain Stubbornness?

LOS ANGELES, April 1.—[To the  
editor of The Times:] Clark is lenient  
but sincere, in the stand he  
takes toward the government of the  
United States in government in  
the hands of England, as far as  
the folks are concerned, and fur-  
ther says President Wilson believes  
working for the best good of the  
country.

He admits that this is true, what  
he said of the mental attitude of  
an executive, who, from reasons of  
necessity, narrowness or whatever  
is willing to give up his country  
in a limited monarchy, the will  
of the ruler is the highest  
where no other person's opinion  
counts and nothing is seen from any  
one where I have what I will have in  
the moment thought? Is he not in  
the position of an absolute monarch?

Unoubtedly his experiences in  
university work, where, as a teacher  
of students, he was well received  
on the students as facts, as  
they were accepted as such,  
as possible method at hand for  
me to demonstrate whether the  
theory of hypothesis for the manage-  
ment of government was correct.

## Hounded By Unionists

(Continued from First Page.)

men have been defrauded of their  
wages, and in consequence of his de-  
fault he was compelled to make to  
make a bad time, and getting  
this up before you body with the re-  
quest that you ferret out the where-  
abouts of this man and give him the  
discipline that he deserves, as it is  
not a small matter that that discredits  
the union organization. I would  
therefore ask that you kindly bring  
this matter up before the proper par-  
ties and bring the man to justice.

On the day following the writing  
of this letter, the union's fore-  
man awoke to a complaint in the  
Police Court at Visalia charging  
Johns with embezzlement. Johns was  
arrested on this warrant in this city  
and remanded out of the city. After  
remaining in jail for four days he  
was taken to Visalia, where he was  
confined in jail for ten days, after  
which time the charges against him  
were dismissed and Johns released.

FORGET IT.

Anwerg's letter to the local sec-  
retary was forwarded by him to William  
Dobson, secretary of the International  
union, with offices in Indianapolis.  
Dobson sent the letter to local  
Union No. 2 of this city, with instruc-  
tions that they proper charged against  
Johns and give him the trial pro-  
vided in their constitution and the by-  
laws of the union. This was not done,  
although the local union was at all  
times advised of the local union. Johns  
had taken too many pains to keep  
them well informed. He continued to  
pay his dues and considered himself  
to be a member in good standing.

In this same letter Dobson is said  
to have written that he had heard that  
Johns had decamped with cer-  
tain funds he had received from the con-  
trary he would publish a statement of  
the facts as set forth in Anwerg's letter  
in the Journal of Bricklayer,  
Mason and Plasterer, or whatever the  
editor, and would also issue a circula-  
tion to the various unions of this  
country and Canada. This was done.

On or about October 1, circular No.  
21 of the international union was re-  
ceived. This circular, after relating  
what had passed between Anwerg  
and the secretary, had been sent to  
the secretaries of the local unions.

Johns knew nothing of the letters  
that had passed between Anwerg  
and the secretaries of the local unions.

Johns had no knowledge of the  
fact that he had been given a trial  
by the local union.

Johns had no knowledge of the  
fact that he had been given a trial  
by the local union.

Johns had no knowledge of the  
fact that he had been given a trial  
by the local union.

Johns had no knowledge of the  
fact that he had been given a trial  
by the local union.

Johns had no knowledge of the  
fact that he had been given a trial  
by the local union.

Johns had no knowledge of the  
fact that he had been given a trial  
by the local union.

Johns had no knowledge of the  
fact that he had been given a trial  
by the local union.

Johns had no knowledge of the

Ostrich riding at the Cawston Ostrich Farm, South Pasadena. Have your picture taken on Main Street. Round trip tickets including admission to farm on sale at P. E. Depot, or at the Cawson down town store, 125 Broadway, one

mound of jonquils and ferns and junc-  
tions cards marked covers for the  
hostess, Miss Towers, Miss Marguerite de Silva, Miss Ellen R. Lowry,  
Miss Alice Lohr, Mrs. Frank de Silva, Mrs. Walter J. Hadley and  
Mrs. Virginia Quensel.

**Cards Out.**

Invitations have been issued by  
Mrs. James C. Karp, and his two  
charming daughters, the Misses Ruth  
and Cecilia Karp, for a tea party the  
afternoon of April 18. About 300  
guests will be entertained at the fam-  
ily home, No. 741 South New Hamp-  
shire street.

**In Montana.**

Mrs. W. A. Clark, Jr., of West Adams  
street, is in Butte, Mont., where  
she will spend a fortnight.

**Going Abroad.**

Miss Kate Freese, with her mother,  
Mrs. A. Freese, left Friday for New  
York, where a day or two will be  
spent before flying for Europe. Mr.  
Freese, with the Misses Jessie and  
Consuelo Freese, will join them for  
a summer in Vienna.

**Motor Jaunt.**

Mr. and Mrs. R. J. Powell and Mr.  
and Mrs. Ross Seely of Los Angeles  
formed a pleasant week-end party at  
Arrowhead Hotel.

**Charity Luncheon.**

The Delta Delta chapter of Alpha  
Chi Omega gave a charity hall last  
evening at the Wednesday Morning  
Clubhouse, on Sichel street, for the  
benefit of the Children's Hospital.

**Recent Wedding.**

The marriage of L. Wayne Davies of  
Seattle, Wash., and Miss Cherrill Lee  
Hastings was solemnized Monday at  
the home of Mrs. Ruby Preston Berry,  
No. 1714 Scott avenue, the Rev. Baker  
P. Low officiating. The house was  
beautifully decorated with white and  
pink carnations. The bride was at-  
tended by Mrs. Ernest R. Varnum, at  
whose wedding she had recently  
served as bridesmaid.

Mr. Davies assisted in entertain-  
ing the wedding party by Mrs. L. D.  
Hastings, the mother of the bride.  
After a short sojourn here at the beach-  
es, where the young couple are  
to remain until the arrival of their  
friends, they will leave for Seattle,  
where they will be at home after April  
15.

**Bridge Luncheon.**

Mrs. George F. Ross, No. 2158 West  
Twenty-first street, used spring blow  
somes to center the small tables at  
which she served luncheon to ninety  
guests. The cards marked covers for  
the affair being one of the most attrac-  
tive of the season. After luncheon  
games of auction employed the after-  
noon, while the houses were asked to  
join in the fun.

**Uncle Tom's Cabin**

is Next  
Mason Attraction.

Not since the production of "Peg  
o' My Heart," by Oliver Morosco has  
there been such an event of theatrical  
importance a state premieres of "Auction  
Pinochle," which occurs at the  
Burbank with the first matinee next  
Sunday afternoon.

**Hippodrome.**

Trained dogs, one of the best acts  
of the day, on the stage, will be  
the stars of the Diving Horses on the new  
Hippodrome bill, which will make its  
appearance next Monday afternoon.

The offering is called Roshiere's

and is designed to interest the  
growing-ups as well as cute enough  
to delight the children.

Dumetreson's troupe of acrobats  
will be purveyed real gymnastic  
thrills, while the British Female  
male quartette which is scoring  
heavily all over the Western States  
Circuit.

Dave Martin, whose Hebrew char-  
acter is remarkable, will be added to  
the budget of hearty laughter to the new  
bill, while another good fun act will  
be Albert and Bozzeli's headless  
marionettes, the couple contributing the  
heads.

The Seven American Rosebuds, who  
are making such a hit this week, will  
hold over, with an entirely new rep-  
ertoire, to the next big feature.

Will the London Super Co. in a tabloid version  
of "The Belles" the most famous play  
in the repertoire of Sir Henry Irving?

Drama, the personal direction of Adolf  
Philip, is going to carry the  
Philip charm in almost every depart-  
ment.

**Forrest**

Forrest, Mr. and Mrs. Forrest, have  
joined forces to make a big play a  
big success.

"Jess" Dandy, Frances Cameron and  
Walter Lawrence will be among the  
greatest cast that ever joined forces to  
make a big play a big success.

"Jess" Dandy of the "Prince of Phil-  
lips" and a host of others, Frances  
Cameron, the Merry Widow, in  
Los Angeles, will be the greatest dancer of  
the year.

There will be other great reel fea-  
tures to supplement this major attraction,  
which promises to be one of the  
most popular pictures ever shown at the  
vaudeville.

**Chocolatiers.**

An innovation for the society people  
of this city was the delightful  
morning musicalie and chocolate pre-  
sides over by Mrs. E. F. Bogardus  
at her home on Western Avenue. The  
affair began in honor of the house  
guest, Miss Terry, and 225 guests re-  
ceived invitations. Masses of white  
carnations, ferns, showers of white  
carnations and white tulips embellished the  
table, with the exception of the  
breakfast-room, where the trailing  
wistaria vine were employed.

**OFFICIALS AS KIDS.**

"Deetrick Skul" to Be Feature of  
Entertainment at Walgreen in East Venice.

VENICE, April 1.—Much interest  
is being displayed in the "deetrick  
skule," which is to be held tomorrow  
night in the Machado schoolhouse,  
by the Venice Improvement Associa-  
tion of Venice, who will be  
presenting the most unique entertain-  
ments ever given here. Among the partici-  
pants who will appear as scholars  
will be Mayor Holbrook, a number  
of City Councilmen, Reenie and  
grande and dignified business men.

Among those taking part are Walter  
Rennie, Howard Lorenz, Charlie  
Thatcher, F. Benedict, L. A. Eager,  
J. C. Barthel, Charles C. Beck, G. W.  
Frederick, Cody Frederick, F. Mc-  
Carver, C. W. Holbrook, W. O.  
Stamp, E. A. Gerety, Dr. Byron  
Palmer, H. B. Easkins, Joe Bell, Har-  
old O'Brien, H. B. Williams, Mrs.  
Bennie, Mrs. John Atkinson, Mrs.  
Henry M. Blodget, Mrs. William L.  
Jones, Mrs. Robert H. Updegraff, Mrs.  
Sidney M. Haskell, Mrs. Harry Harde-  
macher, Mrs. Charles Potter, Mrs. Cotton  
Mother, Mrs. J. A. Bowden, Miss  
Mabel, Mrs. Fern Tolley, Mrs. M. A.  
Amdsen.

## PASADENA HORSE SHOW WILL COMMENCE TODAY.

*Exposition Park Will Be the Scene of the Biggest Event of Its Kind Ever Held in Southern California. Entry List Far Surpasses Those of Previous Events. John B. Miller Suddenly Called to San Francisco.*

Redlight.

One of the speedy ponies owned by Reggie Weis, which will be seen at the Pasadena horse show beginning today.

**P**ASADENA will hold the center of the stage today with its 1914 annual horse show. This show, which is to be given under the auspices of the Pasadena Polo Club, will open at Tournament Park in that city at 2 o'clock this afternoon.

The Crown City has twelve horse shows to its credit, though it did skip the last two years, but more entries have been made in this year's than were made in any other. This affair this year will be conducted on a larger scale all round.

Pasadena and Los Angeles society have for months been looking forward to the event and the attendance on this, the opening day, will undoubtedly be large.

The stock on exhibition will be shown in front of the grand stand at the park. There will be places for spectators and the animals will be seen from the cars, but the boxes this year promise to be more popular, and it will be a race between the fine horses themselves and the many hand-some ladies—especially the women who will occupy the boxes as to which will claim the most attention.

The trotting race will be run this afternoon and there may be several others. The harness race, which the latter feature had not been definitely decided on last night. There will be a large band at the grounds and an especially-arranged concert will be rendered.

John B. Miller, president of the Southern California Edison Company, and one of the best known members of the Pasadena Polo Club, yesterday was unexpectedly called to San Francisco on business and consequently will not be able to attend the show.

Pitcher's Battle.

## KORES'S HOMER IN NINTH WINS GAME FOR BEAVERS.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)

**S**ACRAMENTO, April 1.—That in infinitesimal fraction of a second that is the difference between throwing a baseball low and sharp for 100 feet and throwing it in a higher arc for a distance of 150 feet, gave Dutch Kores's a home run today and gave Portland the only run of the game, with two men out, in the ninth inning, the Beavers making it two in a row over the Wolves—score 1 to 0.

Kores straightened out one of Sailor Stroud's fast shoots and drove it to the left center-field fence. Al Schweitzer retrieved the ball and threw it over Peg Young's head to Eddie Hallinan, who was about fifty feet nearer the infield, and Eddie's relay to the plate arrived in double time, the ball having been off of a second after Kores had responded to the wild encouragement of his team-mates, who had crowded from the players' bench onto the field, a mad, frantic spring into the runner's impetus for an sensational slide over the plate in safety.

But it was a game loaded to the brim with thrills. Kores's ninth-inning home run was fitting climax that brought the fans back to earth with a dull thud after fielding and pitching sensations in quick succession had sent them soaring up in the regions where nerves, cares and worries are forgotten.

For eight innings it had been a slip-and-tuck pitchers' battle, with just enough danger spots to render the game most exciting. The last four hits and those with three walks and two errors accounted for the seven Wolves who got on the paths. But never did the Wolves get anything that resembled bunched life, never did they allow a hit with a man on

BILL RETURNED.

(BY A. P. NIGHT WIRE.) **A**NNAPOLIS (Md.) April 1.—By a vote of 100 to 10, the Maryland legislature tonight sent the Hall Anti-Race Track gambling bill back to committee, after the action of the Senate last night in similarly disposing of the Williams anti-gambling measure. It is now expected that the bill will be introduced again, either now or the end of the session.

West had a good shade the better of the argument when one gets away from the field of battle and looks back on the general effect of the bill on four sides, and those with three walks and two errors accounted for the seven Wolves who got on the paths. But never did the Wolves get anything that resembled bunched life, never did they allow a hit with a man on

## CAMPUS Gossip.

**Pritchard a Bear.**  
Paul Pritchard, the Occidental freshman, looks like the best two-mile ever developed in the South without exception. Although this is the first year he has ever done any running, he has made 2:04 1-5 in the 880, 4:38 in the mile, and 10:06 3-8 in the two-mile.

Local enthusiasts have already forgotten Swiggett's wonderful season of two years ago and are predicting a big future for the Tiger. He is expected to try for a new record in the Southern California Conference meet.

**Drew's Record.**  
Howard Drew's mark of 9:2-8s, for the 190 is almost certain to be allowed, according to Warren Howard.

It appears that everybody agrees that the wind didn't aid him, and that he is not the best in the U. S. to recognize the mark to make it official.

The local sprinter's ability to cover the century in that time is unquestionable, as he has beaten ten seconds every time he has run it. However, if the northerners refuse to accept his mark, he will undoubtedly repeat at the Conference meet at California in May.

**Green's Defeat.**  
George Green's defeat in the 440 by Chase of Stanford was due to the mob entering the stadium, according to those who saw it. The first 100 yards of the race looked like a bunch of I.W.W.'s rushing for a free lunch, and though Green managed to shoulder his way through the mass and get the pace, he was exhausted by the effort that his customary sprint was lacking and he was nosed out in a hair-raising finish.

**Annin All In.**

Bill Annin took on too big a job when he tried to set the pace for Harry Wood in the mile. Bill has discovered the fact and said that his pace wasn't meant for a life on the bounding bi-pal, and that was why he won. It is deemed desirable, but on the other hand, it would be a great thing for Southern California athletics if the Melodious singer determined to return to the American scene as it would unite the South and put the southern institutions on a basis where they could compete with the North on terms of equality.

**A Close Call.**

**MOVIE ACTRESS ESCAPES DEATH BY NARROW MARGIN**

**S**OMETIMES a whole lot happens in the making of movies which does not appear on the screen. This was forcefully proven yesterday when little Myrtle Stedman, the feminine star of "Burning Daylight," which is now in process of construction, was dragged several rods along a barbed-wire fence by an unruly horse which she was endeavoring to master.

"Fiesta" was held by Mr. Voght of the Los Angeles Driving Club, is accustomed to track speeding, but this was his first attempt at racing. As camera man and when the battery of film boxes began to hum, he shied

like a beast going into battle for the first time.

The shy nearly proved fatal, too, for it landed "Fiesta" against the fence, and stung him to the quick. Also the cruel prongs caught in the dress of the girl, chaining the pair to the fence.

Blindly the horse struggled forward, dragging the girl with him, but he had gone some distance, and his flank was cut and crimsoned, before he dragged himself and the girl free from the entanglement.

Though terribly frightened, Miss Stedman was little the worse for her experience, and managed to have a hand for the camera man, but she was obviously in need of a new riding habit.

**BUSINESS FILM RELEASED.**

(BY A. P. NIGHT WIRE.)

**VANCOUVER (B. C.) April 1.**—Infielder Callan and Pitcher Fowlizer, two California youngsters, who were trying out with the Vancouver Northwestern League team, were released today.

Rider's Want Any Support.

Waddell later compensated for his  
different showing in the opening  
game, by a number of brilliant exhibi-

tions.

Waddell had held Oakland too

tightly. Untrained, he faced them  
with contempt, only to be hum-  
bled.

Local fans now woke up next morn-  
ing with a burnt-almond flavor in the  
taste, and convinced that Waddell,  
such a great pitcher, could hardly  
be regarded as a dependable quantity.

Decker, the former Louis-  
ville pitcher, was at first

surprised at the manner in which  
Waddell had won the day.

While Morley regretted losing  
Waddell, he did say that Jim im-  
mediately regained his normal per-  
sonality after having been without it  
for three months.

"Rube" Waddell—nobody took him  
seriously; everybody liked him—but  
was rest in peace.

Last Opening Game.

He was billed for the opening game;

and the opening game was played at

the old Chutes Park, as the Washington

Grounds were then known. All Los

Angeles, or at least that part of it  
which could get inside the place,

turned out that day to see the great

pitcher beat Oakland. Los Angeles

Are they bathing beauties or Zebra girls?

There seems to be some doubt on this point, but there is no argument as to the class of these lascivious damsels who score a hit, all by themselves, in "The Honeymoon Express," now at the Majestic Theater.

Up and Down Broadway.

## PINOCHLE AND UNCLE TOM WILL KEEP TOWN ALIVE.

BY GARDNER BRADFORD.

ONCE again theistic bands battalions and well for Will Wyatt, and now, after saying "I told you so," he finds that he has enough illusions here to go trout fishing at the Hippodrome yesterday.

The only thing that is worrying him is the permit that is necessary for the "Uncle Tom's Cabin" company's brass band to parade the streets.

"Do you guarantee it is a good band?" asked the commissioner when Wyatt made his plea, and the manager of the Mason hesitated long enough to suggest a doubt and then spoke ardently for the permit. I am certain when I got it or not.

Incidentally, I understand that there will be no tangling between the acts, but coon shuffling is permissible.

This Uncle Tom promises to be an event. It will be one for the company, and for Los Angeles, for like Shakespeare and medicine, it is something which none of us ought to be without, at least once in a while.

Of Shakespeare we have already had a surfeit, but Uncle Tom will appeal from another angle. They tell me it is hot there will be real ice for Elias to escape on. Otherwise, the coons stoves will be used, painted to look like ice.

The big stunt seems to be the devolving of proper apparatus to send Little Eva comfortably to Heaven. You see, the soul-raising machinery the show carries was never designed for that purpose. But the manager of the Mason will have to be, so Eva's transmigration is going to be a transcontinental affair by comparison.

And the Majestic is to return the security extended this week by the Mason and stay dark, and with the Morosco again in the hands of the picture men, Uncle Tom ought to get along famously.

The real opposition will be "Auction Pinochle" at the Burbank, but as this will be the first production in English it will not be known until Sunday whether it is a regular show or not.

I am inclined to believe it will be one, though for even the actors laugh, and that is a good sign. To make a good blindfold rehearsal the other day it was to find May Mooney in tears, but that was merely because she can't get that German roll the way Herr Phillips does it.

It is to be regretted that Morosco doesn't give a public rehearsal, for said Phillips is some actor, and if you give him time, he acts the whole show through for you, and puts it all over the regular players.

I like him best as the Russian boxer, the part which Winifred Bryson is to play. I say this without meaning anything against Winnie, who ought to be a star in her part, but she can never do it as Phillips does.

So Harry Woodruff is coming to the Orpheum next week. I suppose that means that the woman will crowd the place, in order to get a line on the char, who more than a dozen times was reported enraged to Anna Gould.

Funny no one discovered that. All showed was the same comedian in character until he was cast for the principal role in "The Girl Behind the Counter," which is coming to the Movie shortly.

Sheen was here with "The Candy Shop" and did very well indeed, but to

have become a star while he has been loafing doesn't sound reasonable.

For once, sugar and kindness have been of no avail. And incidentally, when there was Mark Twain into the See of Gaillie, absolutely refused to buck at the Hippodrome yesterday.

Joe Carver made a great speech, telling how Twain rode by the sacred sea, how Jerusalem suddenly rushed to the water's edge and catapulted the humorist into the brine, and then added "Jerusalem will now show where he did it."

Jerusalem, with Two Feathers on his back, came on stage, but he blinked and tried to kiss Doc. He even went to the edge of the stage, but the audience would not let him. That was all, and no amount of persuasion would make him repeat his story.

Will Harry Bonelli please write or phone? Important.

## POLY IS BEATEN BY HOLLYWOOD.

Poly High's baseball team suffered the first defeat of the season when the Hollywood Hills Mechanics team beat them 10 to 9 yesterday on the latter's diamond. It was only practice game, and the Mechanics did not use their full strength, trying out a couple of young team twirlers, while Able, their heavy star, took it easy on the bench.

The Washington school team outdid their opponents, but a weird bit of catching by Crittley lost the game. He was all over the field, allowing the winners to steal five bases, besides running wild on hits. Smith played a great game for Poly, while Karsten showed well for Hollywood both on the field and at the bat.

The score: Poly, 4; hits: 11; errors, 2. Hollywood, 5; hits, 7; errors, 3. Batteries: Poly, 1; Hollywood, 2.

Poly—Stanbury, Copeland and Crittley. Hollywood—Forbes and Heeb.

Hollywood—Forbes and Heeb.

WISCONSIN MAKES MONEY ON FIGHTS.

BY A. P. NIGHT WIRE.

MILWAUKEE (Wis.) April 1.—The State of Wisconsin has been enriched to the extent of \$10,000 by the 5 per cent tax levied on the receipts of the various license boxing clubs in the state, and the new law governs boxing contests held here in force.

With the boxing season only half over, Walter H. Litzinger, chairman of the Boxing Commission, said today that the total return to the State from this source will amount to at least \$20,000 at the end of the season. There are now twenty-two boxing clubs in the state, licensed under the law.

CLABBY FAVORITE OVER BILL MURRAY.

BY A. P. NIGHT WIRE.

SAN FRANCISCO, April 1.—Jimmy Clabby of Hammond, Ind., and "Fighting Bill" Murray of Sacramento, finished their training today for their twenty-round bout at the City. Just outside San Francisco Friday night. Tomorrow they will do only enough work to keep their muscles limber. Clabby is down to 180 pounds, and Murray has put on 10 since his last bout, and is a little heavier, but both will weigh in under the middleweight limit of 155 pounds with ease, and both are in top condition. Bettors have made Clabby a 2 to 1 favorite, but preface are that the marks will ease off on account of rain.

TOO MUCH RAIN.

INDIANAPOLIS (Ind.) April 1.—The baseball game between the Chicago National League team and the Indiana American Association club, scheduled today, was postponed

## VARSITY BOAT RACE TO BE ROWED IN MORNING.

BY A. P. NIGHT WIRE.

SAN FRANCISCO, April 1.—The pictorial crack that will send the varsity crews of the Universities of California and Washington and Stanford University swimming down the Oakland estuary Saturday, April 11, will be heard at 10 o'clock in the morning. It was definitely announced tonight that the parley between the three universities, including California's instant demand that the race be rowed in the afternoon because of more favorable tide conditions, had closed with the Blue and Gold defining the wishes of Stanford and Washington.

The agreement was reached last night, announced Capt. Philip F.

## KID AUTOISTS TO HAVE ORGANIZATION

BY A. P. NIGHT WIRE.

An organization was effected this week which will be known as the Junior Racing Association of America, with E. H. Pendleton as honorary president, and George C. Johnson, vice-president, and native general manager, and Walter M. Brown, active secretary and treasurer.

The organization, it is stated, is for the purpose of forming juvenile racing and mechanical engine associations, and will have its headquarters in Culver City, which was the scene of the recent junior Vanderbilt races, and will have bureaus in the large cities of the country. All the young car enthusiasts in Los Angeles and suburban towns have signed up as members of the new organization and have agreed to abide by its rules.

The Junior Racing Association of America will exercise authority over juvenile auto races somewhat in the same way that the Amateur Athletic Union guards the interests of the young men of America and abroad. The organization is stated, will have the moral and financial support of prominent local automobile men and all the professional racing drivers.

STANFORD TO MEET L.A.A.C. TONIGHT.

BY A. P. NIGHT WIRE.

Basketball will be brought back on the scene tonight when the Stanford and L.A.A.C. meet in the club gym. Advance reports credit the conference with a great team bound together by powerful team play and carrying several clever goal keepers. They finished second in the inter-collegiate league up north, losing only one game during the league schedule.

The L.A.A.C. five needs no mention, for every basketball fan knows of their splendid team and wonderful gym. Advance reports credit the conference with a great team bound together by powerful team play and carrying several clever goal keepers. They finished second in the inter-collegiate league up north, losing only one game during the league schedule.

Actual photograph of a Hallett, Davis & Co. piano sold here for \$235, on terms of \$25 cash and \$7 a month. Ordinarily these pianos bring at least \$450. I have two more fine Hallett & Davis upright pianos in the store that I'll sell for the same price and on the same easy terms. We are selling out to quit business here. I'm going back to Oregon. I have also many other handsome uprights, famous makes, brand new; some for as little as \$115 and even \$95. Old ones for a mere song.

TOO MUCH RAIN.

INDIANAPOLIS (Ind.) April 1.—The baseball game between the Chicago National League team and the Indiana American Association club, scheduled today, was postponed

## FIGHT TALK AROUND TOWN.

Welling and Ketchel Depart for North.

Azevedo May Get Match with Joe Welling.

Al Norton Still Dickered with Gunboat Smith.

BY DE WITT VAN COURT.

Both Babe Picato and Joe Welling were around town yesterday looking for a fight, fine and dandy after their fast twenty-round contest.

Welling bore no marks from the tough contest and the only mark that Babe had was a cut over one of his eyes that did not get round the last round of the contest.

There is some talk of matching Picato and Joe Azevedo and Joe Mandot and Joe Welling, but the match would be between Joe Mandot and Picato and Welling and Azevedo.

Picato and Mandot are about the same size and weight and both are very clever boxers, in my opinion, it would be hard to match them and Welling and Azevedo.

MONEY TALKS.

Jimmie Rowan, manager of Azevedo says that he will give Charlie White \$1000 and a side bet of \$5000 if White will agree to meet Azevedo in a twenty-round contest on the 11th.

Let me meet Welling first and prove that he is as good as Rowan claims and then he will be entitled to a return match with White.

Welling bore no marks from the talk of the fans yesterday. He did a lot more than was expected of him and then some.

In the first place he made the weight easier than was expected and entered the ring in excellent condition.

The fast pace that he set at the start was the cause of quite a lot of comment among the moviegoers, and it was considered poor judgment on part of his advisers in his corner, as it was his first twenty-round contest.

But as it turned out, it was better for him to do this than could happen at this time in his boxing career, for the simple reason that he will know in the future that he can set a fast pace for the full distance and keep it up.

VERY COOL.

He is a cool and willing boy and anxious to make all right and will take every advantage of his chances.

He was more anxious to win Tuesday night for the sake of his father and mother than for himself, and repeated this as he came to his corner.

"If I can't win the fight, I'll send word back to the old folks I will be the happiest boy in the town."

Joe Larine Litchenstein, Johnny Schilf and Steve Ketchel left for San Francisco yesterday, but Charley and I, and to witness his fight with Murray Friday night, but they will all return shortly after the contest.

Al Norton, who is matched to meet Gunboat Smith some time this month, will be here to see the results of this conference that California graciously received from its position.

Had this difficulty not been adjusted there was a probability that Washington would not come South as race was to be held in the afternoon because of more favorable tide conditions.

Gold, defending the wishes of Stanford and Washington, will be allowed to land this match.

He has turned down several good offers from the McMahon brothers of New York to meet some heavyweight in that city. He also has an offer of \$1000 to meet the champion of 25 per cent to meet Jack Dillon in Kansas City on the 27th inst.

Another offer from Philadelphia to meet Battling Lennox in a six-round bout, with the roundtrip tickets from Los Angeles, \$50 each, of the house and a guarantee that there will be at least a \$6000 house.

This is proof that Norton is well thought of in San Francisco.

Norton has made good every-time he boxed away from home and should be given the chance to try.

When Jim Jeffries first started out of this city he was a unknown to most of the fans and ridiculed from every standpoint. But he became the champion later and had the laugh on many who took no stock in his abilities.

The same thing was said of Solly Smith, who, later, won the world's featherweight title when he defeated the great little colored boxer, George Dixon.

Neil Corbett, Jim Corbett, Jimmie Britt and Willie Ritchie, all had the same experience up in San Francisco, still they all won championships in their class, and Abe Attell could not even get a round-trip ticket to his own town when he started. But he broke away and became the greatest little featherweight champion the world ever had since George Dixon was in his prime.

MORE CRASHING.

BY A. P. NIGHT WIRE.

CHICAGO, April 1.—Robert B. Ward, president of the Brooklyn Federal League club, arrived in Chicago yesterday to settle the Pitcher Seaton case with Charles Wachsmuth of the local club. Both probably will return to Brooklyn according to the promise made Ward when he entered the league, or will be retained by Chicago and the Ward club given several players in his place, it was said.

The same thing was said of Solly Smith, who, later, won the world's featherweight title when he defeated the great little colored boxer, George Dixon.

Neil Corbett, Jim Corbett, Jimmie Britt and Willie Ritchie, all had the same experience up in San Francisco, still they all won championships in their class, and Abe Attell could not even get a round-trip ticket to his own town when he started. But he broke away and became the greatest little featherweight champion the world ever had since George Dixon was in his prime.

Lo, the Poor Indian!

BY H. ADDINGTON BRUCE.

Illustrated by H. L. DRUCKLIEB.

Whether or not we believe in occultism,

weird and uncanny subject is always fascinating. We learn here that physical research has been useful to medical science, that hypnotism, crystal gazing, etc., have their value in bringing back health to victims of nervous breakdowns. Some things are also explained away that many of us have puzzled and wondered over.

The Troubles of Two Working Girls

Story

By Helen Van Campen

Illustrations by Horace Taylor

There is nothing "high-brow" about this story.

It's a mixture of slang and chorus-girl sauciness, but the result is so droll and entertaining that we endorse it as a chaser of the "blues."

NAME COMES TO  
HIM IN DEATH.NAME WRITES ONLY CHINESE  
WILL EVER PROBATED.and in His Own Tongue,  
Succeeds Where Many  
Men Have Failed—Docu-  
ment Regarding Lawyer as One  
of Most Unusual Ever Filed.Chin Yuk was one of many Chi-  
nese who worked hard, lived frugally,  
and was not known outside of the  
circle of his friends and business ac-  
quaintances until he died, when it  
was discovered that he had become  
rich.The way of it was this:  
Chin Yuk accumulated a fortune of  
over \$100,000 in cash. He had no  
children, wife, or dependents, and  
therefore did not have the estate es-  
tate. Chin Yuk, who knew no English and  
therefore ignorant of the law of  
the land where he had worked  
so hard, drew up his will in the Chi-  
nese language.Many intelligent white men  
had drawn up their own wills and  
perhaps they knew some law  
but were over-cautious and verbose  
and the documents failed the test of theProbate Court. But not so Chin Yuk.  
The will he drew was brief and fast; and  
the rest of the test of Judge Kiven's  
rigid rules. It was admitted to pro-  
bate yesterday.But because Chin Yuk drew his own  
will and it was admitted did not make him  
known to fame. Rather it was the  
fact that he was the first will  
written in Chinese that has been probated  
in any Probate Court in the United  
States and was passed on by the  
Administrator of Estates.Representing W. G. Kerckhoff,  
Architects Morgan, Wall &  
Associates made application for a permit  
over the construction of a United  
States Building at Sixth and Main streets.The new portion of the structure will  
be 120x155 feet in size, and twelve  
stories high. Parkinson & Bergstrom,  
the architects, have just completed  
working plans for the improvement.John R. Thomas applied for a per-  
mit to construct an eight-story hotel  
on the northeast corner of Fourthand Olive streets. The cost of the  
building is given at \$210,000. Plans  
for the contemplated hotel have  
been prepared by J. M. Cooper and  
J. J. Cornwall. The former, in de-  
scribing the project, said that the  
new portion of the structure would con-  
tain 250 rooms and that it would oc-  
cupy a ground area of 87x120 feet.Another important building de-  
velopment is the building of a new  
office building at 120x155 feet, the  
fact that application would  
probably be made within a few days  
for a permit to cover the construction  
of the \$1,000,000 structure pro-  
jected by the Commercial Building  
Company for the northwest corner  
of Fifth and Spring streets. This magnificient block, a perspective  
of which was published exclusively  
in The Times December 12, will be  
120x155 feet in size, and twelve  
stories high. Parkinson & Bergstrom,  
the architects, have just completed  
working plans for the improvement.Probate Court. But not so Chin Yuk.  
The will he drew was brief and fast; and

mit to construct an eight-story hotel  
on the northeast corner of Fourthand Olive streets. The cost of the  
building is given at \$210,000. Plans  
for the contemplated hotel have  
been prepared by J. M. Cooper and  
J. J. Cornwall. The former, in de-  
scribing the project, said that the  
new portion of the structure would con-  
tain 250 rooms and that it would oc-  
cupy a ground area of 87x120 feet.Another important building de-  
velopment is the building of a new  
office building at 120x155 feet, the  
fact that application would  
probably be made within a few days  
for a permit to cover the construction  
of the \$1,000,000 structure pro-  
jected by the Commercial Building  
Company for the northwest corner  
of Fifth and Spring streets. This magnificient block, a perspective  
of which was published exclusively  
in The Times December 12, will be  
120x155 feet in size, and twelve  
stories high. Parkinson & Bergstrom,  
the architects, have just completed  
working plans for the improvement.Probate Court. But not so Chin Yuk.  
The will he drew was brief and fast; and  
the rest of the test of Judge Kiven's  
rigid rules. It was admitted to pro-  
bate yesterday.But because Chin Yuk drew his own  
will and it was admitted did not make him  
known to fame. Rather it was the  
fact that he was the first will  
written in Chinese that has been probated  
in any Probate Court in the United  
States and was passed on by the  
Administrator of Estates.Representing W. G. Kerckhoff,

Pasadena.

## ARROYO SURVEY PARTY OUTFITS.

Mint and Bouquet Canyons  
Already Staked.

Wonderful Fight for Life by  
Weyerhaeuser.

Citizens Arrange Conference  
on Transportation.

(LOCAL CORRESPONDENCE)

PASADENA, April 2.—An important beginning in what Pasadenaites believe will be the logical outcome of the investigation on the part of Los Angeles county as to what the route of the proposed Antelope Valley road shall be was made yesterday, when a party of county surveyors, under the leadership of F. D. Bowles, outlined here for a survey of the Arroyo Seco.

Bowles yesterday announced that the Mint and Bouquet Canyon surveys have been completed and that the attention will now be given to the Arroyo Seco. The Board of Supervisors is to decide within thirty days which route shall be chosen. Bowles expects to have his report of the proposed routes in before this time.

The surveyors, who left Pasadena yesterday, will work north from Oak Wynde Camp, which is at the junction of the Arroyo Seco and Bouquet Canyon. Another party is working south from Vincent. About ten miles has been allotted to the former party and twenty miles to the latter.

The Frederick W. Weyerhaeuser has already urged the supervisors to decide upon the Arroyo Seco route, and as soon as the reports of the different surveys are in it is time to consider the decision of the matter, either requests will probably be made by that organization.

IS IMPROVING.

Good news came from the residence of Frederick W. Weyerhaeuser, the "stricken" millionaire, last night. His condition improved markedly yesterday and in the evening one of the members of the family said:

"Mr. Weyerhaeuser is considerably stronger today than he was yesterday."

Asked if he is now considered to be out of danger, he said:

"I would not say that, for a man of his age. But he is better. Yesterday morning we did not have much hope. Now he is as good as ever."

Weyerhaeuser is 80 years old and the fight he is making for life is considered by the physicians who are attending him and by the members of his family to be heroic. Every member of the family is now at the Oak Knoll residence, where the sick man lies, and nothing that money can buy has been overlooked in caring for him. Seven doctors are quartered at the house day and night.

WANT UNION STATION.

At a meeting of representative Pasadenaites held at the rooms of the Board of Trade yesterday, F. D. Bowles, president of the organization, announced his intention soon to ask for a conference of representatives of all the civic organizations of the city on the question of transportation. The proposed scheme is occasioned by a rumor current here that the Santa Fe Railroad proposes to abandon its track through Pasadena. The committee to meet will be an inter-city affair and residents of both Los Angeles and Pasadena are requested to send in anything they may have to them on the subject. A hearing date is set for May 10.

DISCUSS POLES.

At a conference yesterday between the City Commissioners, E. H. Mulligan, manager of the Pasadena branch of the Southern California Edison Company, and C. W. Koenig, manager of the Pasadena Children's Training School, the Service Home, Agnes and the Pasadena Day Nursery. This committee is composed of Mrs. Albert Sherman Hoyt, Mrs. Howard Huntington and Mrs. A. L. Hamilton of this city, and Mrs. Hancock Banning of Los Angeles.

The White Elephant will be an inter-city affair and residents of both Los Angeles and Pasadena are requested to send in anything they may have to them on the subject. A hearing date is set for May 10.

Good news came from the residence of Frederick W. Weyerhaeuser, the "stricken" millionaire, last night. His condition improved markedly yesterday and in the evening one of the members of the family said:

"Mr. Weyerhaeuser is considerably stronger today than he was yesterday."

Mrs. A. L. Hamilton, one of the most enthusiastic workers yesterday, "of course, we can't go into people's yards and plant flowers, but we are going to keep right after it until they do it themselves."

BRING ANY OLD THING.

A committee was appointed yesterday, which will take full charge of the White Elephant, which is one of the chief attractions at the County Fair to be given at the Hotel Green on the 17th and 18th inst., as a benefit for the Charitable League, the Pasadena Children's Training School, The Service Home, Agnes and the Pasadena Day Nursery.

This committee is composed of Mrs. Albert Sherman Hoyt, Mrs. Howard Huntington and Mrs. A. L. Hamilton of this city, and Mrs. Hancock Banning of Los Angeles.

LOCAL CORRESPONDENCE.

SOUTH PASADENA, April 1.—Electricizing the Santa Fe Railroad from Pasadena to Los Angeles is the latest suggestion for solving the traffic problem between these two cities and of getting around the difficulty of repairing the bridge of the Pacific Electric company over the Arroyo Seco.

From unofficial sources it has been found that the officials of the Pacific Electric are not in favor of repairing the bridge, but the suggestion was made by their engineers that the damage caused by dynamiting during the storm was so great that it would be necessary to repair it before it could be made safe for travel. This would incur too great an expense for a temporary structure, which is to be abandoned as soon as the "Shorter Short Line" is completed.

The commissioners expressed their desire that the city should make arrangements to use one set of poles for a temporary structure, which is to be abandoned as soon as the "Shorter Short Line" is completed.

The commissioners expressed their desire that the city should make arrangements to use one set of poles for a temporary structure, which is to be abandoned as soon as the "Shorter Short Line" is completed.

CHANCE FOR LIFE.

Dr. B. O. Coates of No. 221 North Euclid avenue, surgeon of the Receiving Hospital, performed an unusual operation at the Pasadena Hospital last night. He removed the spleen from Angel Grossi, aged 26, an Italian who lives at 1111 Wilton place, Los Angeles, and who was over by a heavy motor truck, one wheel of which passed over his abdomen. He has a good chance to recover.

The accident occurred late in the afternoon on North Michigan avenue. Grossi was accompanied by his employer, John W. Pritchard of Los Angeles. He attempted to leap onto the truck and fell under the wheels. He is unharmed.

CONDITION IMPROVES.

J. W. Pitts, who was struck by an automobile driven by Ralph W. Waters last Saturday night, and who is now in a serious condition at the Marconi-avenue Hospital, was reported to be better last night.

No charge has been brought

against Waters. He appeared before Police Judge McDonald last Friday and was fined for speeding, for which he was arrested later the same night, but Judge McDonald did not then go into the matter of the accident at all, as he felt that to be a separate case. The man, should there be any prosecution, a later charge would be brought.

ALL KINDS OF SMALL GIFTS FOR PRIZES.

WATERS, 61 N. Euclid.—[Advertisement.]

NEW RAILWAY PLANS.

SOUTH PASADENA Awaits Action of Pacific Electric in Electricizing the Santa Fe Track.

NEW RAILWAY PLANS.

SOUTH PASADENA Awaits Action of Pacific Electric in Electricizing the Santa Fe Track.

[LOCAL CORRESPONDENCE.]

SOUTH PASADENA, April 1.—Electricizing the Santa Fe Railroad from Pasadena to Los Angeles is the latest suggestion for solving the traffic problem between these two cities and of getting around the difficulty of repairing the bridge of the Pacific Electric company over the Arroyo Seco.

From unofficial sources it has been found that the officials of the Pacific Electric are not in favor of repairing the bridge, but the suggestion was made by their engineers that the damage caused by dynamiting during the storm was so great that it would be necessary to repair it before it could be made safe for travel. This would incur too great an expense for a temporary structure, which is to be abandoned as soon as the "Shorter Short Line" is completed.

The commissioners expressed their desire that the city should make arrangements to use one set of poles for a temporary structure, which is to be abandoned as soon as the "Shorter Short Line" is completed.

CHANCE FOR LIFE.

Dr. B. O. Coates of No. 221 North Euclid avenue, surgeon of the Receiving Hospital, performed an unusual operation at the Pasadena Hospital last night. He removed the spleen from Angel Grossi, aged 26, an Italian who lives at 1111 Wilton place, Los Angeles, and who was over by a heavy motor truck, one wheel of which passed over his abdomen. He has a good chance to recover.

The accident occurred late in the afternoon on North Michigan avenue. Grossi was accompanied by his employer, John W. Pritchard of Los Angeles. He attempted to leap onto the truck and fell under the wheels. He is unharmed.

CONDITION IMPROVES.

J. W. Pitts, who was struck by an automobile driven by Ralph W. Waters last Saturday night, and who is now in a serious condition at the Marconi-avenue Hospital, was reported to be better last night.

No charge has been brought</p

## Public Service: City Hall, Courts.

**SUMMARY OF THE DAY.**  
The City Council yesterday adopted the ordinance of intention to construct a storm sewer in Alameda street, pave the thoroughfare from North Broadway to Sixth street, and build a sanitary sewer in a portion of the street.

Dr. Millbank Johnson, head of the Municipal Charities Commission, reported yesterday that the municipal employment bureau has furnished work for more than 9000 men and women since it was opened the first of the year.

The Council is seriously considering submitting to the people a proposition to delegate to the State Railroad Commission rate-fixing powers on public utilities. A hearing was held yesterday.

The wife of a business man declared in a divorce suit yesterday, that she idolized her husband and would return if he permitted it, although he had removed her goods from their home and she was forced to live elsewhere. The court granted her the decree on her cross-complaint, showing he had not provided for her.

**BIG DRAIN FOR STORM WATERS.****ACTION AT LAST ON DELAYED ALAMEDA IMPROVEMENT.**

**Project to Cost at Least Half Million Dollars Provided for by Ordinance of Intention Adopted by City Council Yesterday—Includes Paving and Sanitary Sewer.**

The proverbial "oldest inhabitant" may be able to recall just when they began to talk about an adequate storm drain for Alameda street—but more recent comes back to that time as ancient history. Three times complaints have been rounded out for this work, only to finally fail of accomplishing their purpose. The fourth time is a winner—at least to the point of adoption of the ordinance of intention.

The City Council passed this ordinance yesterday, and finally put it before the proceedings. The project will involve a total cost of more than half a million dollars. The work includes the main storm drain, one portion of the lateral, the paving of a two-acre tract and dedicate certain property for park roads before it will affect Alameda street.

The employment of twelve substitutes firemen at the rate of \$50 per month was provided for yesterday by the Council.

The City Attorney was instructed by the Council yesterday to prepare an ordinance providing for the stamping on tax bills statements of any special assessments due on the properties for which the bill is made. This movement was started some time ago by a resolution introduced by Councilman Langdon.

On the rough draft of the proposed constitutional amendment providing for city and county consolidation was carried on all day yesterday by the City Attorney, Los Angeles, Pasadena and Oakland. Copies will be submitted to the legislative bodies of the three cities for their approval before the petitions are put into circulation.

pointed out that after this advantage is secured by the city it can then vote to take back the delegated powers.

Miss Stanton, who has been one of the leaders of the women who appeared daily before the Council during the gas hearings, made a long and rambling address that was finally interrupted by Councilman Conwell, who at a point of order, insisting that the speaker was not presenting any arguments pertinent to the question at issue and that she be required to desist from personalities.

Miss Stanton continued, when Councilman Swedien spoke up: "We've got to get back to here—but we don't get any chance."

The speaker asked for a few moments more, and declared that there were several others present who wanted to speak—but the Council speedily took up the regular consideration of a forty section report of the City Engineer and the speakers dwindled away.

Should the Council decide in favor of the report, it would be referred to the State Railroad Commission, the question would have to be submitted to the vote of the people.

The Council voted to postpone action on the gas rate for one week, presumably to give time to decide whether the question discussed above shall be submitted to the voters.

**Municipal Notes.**

Acting Mayor Whiffen's letter to the City Council regarding that immediate steps be taken to procure municipal water service for Hollywood, was sent by the Council yesterday directly to the Public Service Commission, as that body now has the subject under consideration.

The Council yesterday adopted a resolution submitted by Councilman Conwell, instructing the Board of Public Works to prepare specifications for street lighting under an existing contract, and to provide that 500 new lights be placed during that period.

The City Council yesterday voted to deny the protest of Gabor Heygi against the closing of a portion of Hollywood street, as the outcome of the long controversy over roads in Elvian Park. The Council requires that Heygi deed to the city a two-acre tract and dedicate certain property for park roads before it will act. Some time ago he agreed to do so.

**At the Courthouse.****LOVES HUSBAND EVEN IN ABUSE.****IDOLIZES MAN WHO MISTREATED AND DESERTED HER.**

**Man with Income of Almost One Thousand Dollars a Month Turns Wife Out of Home—He Sues for Divorce but Decree Is Granted to Her by Court.**

"I idolized him; I do now," declared Mrs. Grace L. Mills, who filed a cross-complaint in the divorce suit for desertion brought by Amos E. Mills, of the Mills Auto Transfer Business, and was telling her story to Judge Shenk yesterday.

"Did you idolize him when he turned you out of your home?" her attorney asked her.

"I did," was the reply, "and I would return to him now if he would permit me."

Mills said he would take his wife back under certain conditions. He charged her with desertion, the evidence showed, however, that Mrs. Mills' step-daughter, Vesta, 11 years old, did not seem to agree, he hauled her goods out of the house and she occupied apartments on Broadway. Since June 24, 1912, this occurred, Mrs. Mills stated that her husband had not provided for her, although he was doing a business of \$500 a month.

Both Mills and his wife had been married previously, their step-daughter having died. Mills has son and a daughter; Mrs. Mills, two boys. The evidence also showed that she gave him \$500, part of the money received on her marriage.

"Why shortly after our marriage," she said to the court, "he went out and stayed until 2 o'clock in the morning; and on each occasion he would return to him now if he would permit me."

Mills said he would take his wife back under certain conditions. He charged her with desertion, the evidence showed, however, that Mrs. Mills' step-daughter, Vesta, 11 years old, did not seem to agree, he hauled her goods out of the house and she occupied apartments on Broadway. Since June 24, 1912, this occurred, Mrs. Mills stated that her husband had not provided for her, although he was doing a business of \$500 a month.

Both Mills and his wife had been married previously, their step-daughter having died. Mills has son and a daughter; Mrs. Mills, two boys. The evidence also showed that she gave him \$500, part of the money received on her marriage.

"How about that?" the court asked Emery.

"Well, I did do that," he admitted, "but to tell the truth, I forgot I was married."

The decree was denied.

**TOO MUCH WINE.**

**BOYS GET INTO TROUBLE.**

The wedding of Jake Boloff and Anna Kolofoff, a cask of wine and Anne's Aunt, Mrs. Thompson, and Alex Povoroff, boys, into trouble. They are now at Detention Hall awaiting arraignment in the Juvenile Court on the wine and assaulting the Chinese.

The boys attended the wedding, and it is alleged that the wine was carried away from the house to a spot in the rear of the Chinese place, where it was broken. A meeting time was in progress, when the Chinese interrupted. The Chinese go, the worst of the mix-up. The wine belonged to Antonio Rossi of No. 1418 East First street.

**SUIT FILED.**

**RESTRANING TREASURER.**

A suit to restrain City Treasurer Hance from carrying out his intention of collecting \$125 citizens for refusal to pay the amount of \$100,000 in the construction of the Hill-street tunnel between First and Temple streets, was filed by Attorneys Delmas, Imel and Banks yesterday.

The suit was filed by Mrs. Ellen Thompson, the Title Insurance and Trust Company, the Hamburger Realty Company, and others, and they allege that the tunnel is not constructed according to specifications.

"When does your train leave?" "My train did not have a train, Your Honor," Dillon replied. "I drove down in an automobile."

"Well, I didn't want you to lose your train," said the court. "Proceed, your Honor." The trial was then cross-examined by Mrs. Ross at great length, Judge Monroe, who usually does most of the questioning in his court, exclaimed to Dillon:

"When does your train leave?" "My train did not have a train, Your Honor," Dillon replied.

Dillon sank into a chair, with a dazed sort of look. Later on when he was got under way, he was cross-examined by Mrs. Ross at great length, Judge Monroe, who usually does most of the questioning in his court, exclaimed to Dillon:

"When does your train leave?" "My train did not have a train, Your Honor," Dillon replied.

"Well, I didn't want you to lose your train," said the court. "Proceed, your Honor."

Dillon proceeded and won his case. He smilingly said to the court he knew him better than he did at the beginning.

He was won on his cross-complaint on the ground of desertion.

Mrs. Ross charged him with cruelty, the trouble seeming to center around Dr. Ross's son, Paul, by a former wife. Mrs. Ross admitted she had

been in a position to have a wider grasp of the subject than any local board, and

had prejudices which would be eliminated from rate-fixing.

Finkle urged that the State Railroad Commissions would be in a position to have a wider grasp of the subject than any local board, and

had prejudices which would be eliminated from rate-fixing.

Finkle addressed the Council on this subject from the engineering standpoint, declaring that under present provisions of State laws the engineering forces and expert accountants of the State Railroad Commission could be made available for determining actual plant values of gas plants, and no local prejudices would be eliminated from rate-fixing.
